1. These patterns are discontinued in 2010 sample book. They will be supported through 2010.

2. These patterns have a high jute or paper content. Edge binding can cause some stretching or warping with these patterns on wide shades.

Shade Styles

1] Standard Roman Shade

Shade is raised by means of cords, which hang in front of the shade. Includes a 6-inch valance to conceal the components. When raised, the material rises from the bottom in flat folds.

2] Waterfall Shade

Shade is raised by means of cords, which hang behind the shade. Material is attached to the front of the head rail, without a valance. When raised, the material rises from the bottom in flat folds.

3] Twin Shade

Features two separate, independently operated shades on one head rail. The front shade can be either a standard or waterfall natural woven shade.

A separate liner shade is attached to the back of the head rail and both shades operate independently. Lift cords can be on the same side or opposite side of the shade.

Available with Roll Ease® clutch control for the front, natural woven shade or for both shades. See specifications for headrail sizes.

1] Standard

2] Waterfall
Shown with optional wood bottom bar.

Shown with cords on same side.

Shown with cords on opposite sides.

3] Twin Shade (in Standard Style)
Shown with optional wood bottom bar.

No Charge Options

Valance returns supplied with all outside mount shades. They also are available on request with inside mount shades. An extra ¼" deduction will be made to IM shades with valance returns.

Hold down brackets supplied upon request (not available with edge binding or wood bottom bars).

Spacer blocks are available upon request.

Extra Charge Options

Pricing for all Extra Charge Options can be obtained by pricing the shade and then adding the appropriate price from the Surcharge Charts for the chosen options. All prices in the Surcharge Charts are retail surcharges.

Cut Outs

Cut Outs can be taken from either side of the shade. Please provide exact dimensions and the locations of cut outs required.

There may be limitations to what can be cut out, based upon the size and specifications of the shade. The factory will review all orders for cut outs and provide confirmation of each order within 24 hours.

Cut Outs are not available with edge binding.

Clutch Control and Continuous Cord Loop

Clutch controls are available with all shade styles. Clutch controls are not available with Top Down Bottom Up.

Available on all sizes of shades.

Shades with clutch controls will be shipped without cord cleats, but with a RollEase® cord safety clip.

Shades with clutch controls will be mounted on a wider head rail (see Specifications for details).

Cord loops are dyed to coordinate with the color of the shade.

Edge Binding

Check **Materials Reference** for availability with each pattern. Fabric Edge Binding, 3 inches in width, (1½" on face of shade) will be applied to the sides of the shade and valance (if applicable) and across the bottom of the shade. Not available with Wood Bottom Bar. Not available with hold down brackets.

Liners

Available in Privacy or Black-Out liner.

Available with Wood Bottom Bar and Edge Binding. Liners are secured to the back of the shade by stitches at each side of the liner.

Privacy liners feature sewn-in ribs to give the liner the appearance of a finished roman shade.

Standard Shade
with Continuous Cord Loop

Standard Shade
with Edge Binding

Extra Charge Options

Lined Valance

Lined valances are recommended to conceal the head rail components, where an open-weave pattern is selected. This is particularly recommended if clutch controls are chosen or for Top Down Bottom Up Shades, as these components are more visible through the valance. We recommend lined valances for the following patterns:

Acacia	Alina	Cabana	Chibo	Nocturne	Sakura	Tropical Wood
Akita	Aurora	Caribe	Nikko	Rustic	Samoa	

Lined valances will always be made with Privacy Beige Liner (FL8) unless otherwise specified. If the shade is lined, the lined valance will be made with matching liner color.

We recommend that Waterfall Shades made with clutch controls in these patterns should be ordered fully lined.

Lined valances may also be ordered for standard shades with cord locks, if desired, to completely conceal the head rail components.

Multiple Shades on One Head Rail

Shades can be ordered two-on-one head rail, or three-on-one head rail, up to a maximum width of 120 inches. The width limit for a common valance is 96 inches.

Normal inside mount deductions will be made and there will be a maximum ½ inch gap between shades.

Top Down Bottom Up Shades

Shade can be raised from the bottom or lowered from the top, by two sets of cords on opposite sides of the shade. Includes a 6-inch valance to conceal the components. When raised, the material rises from the bottom in flat folds. Available with Liners, Wood Bottom Bars and Edge Bindings.

We recommend lining the valance on the Top Down Bottom Up Shades to conceal the components and any light gap which may be visible at the top of the shade.

Wood Bottom Bar

Available with all patterns and up to 96" wide. Not available with Edge Binding. Select your own color, or choose our recommended color to coordinate with your shade fabric. Tassels will be coordinated to the pattern and cords, not to the Wood Bar.

Top Down Bottom Up

Specifications

Head Rail Dimensions

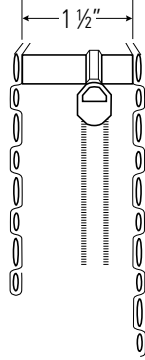

Middle support brackets will be supplied for all shades over 41 inches wide.

NARROW HEADRAIL

(Custom Order Only)

- Standard Shades
- Waterfall Shades
- TDBU Shades

STANDARD HEADRAIL

- Standard Shades
- Waterfall Shades
- TDBU Shades

Size Limitations

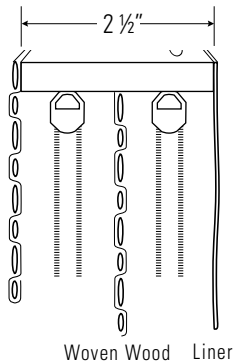

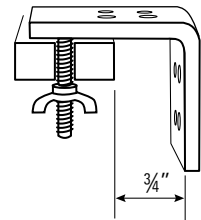

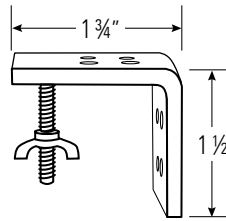

Minimum Width: 18 inches
Maximum Width: 96 inches

Minimum Height: 18 inches
Maximum Height: 108 inches

Multiple shades on one head rail can be ordered to 120 inches wide. Maximum width for common valance is 96 inches.

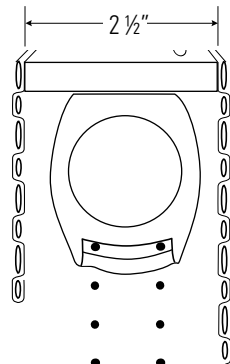

Bracket Dimensions

Height: 1 1/2 inches
Depth: 1 3/4 inches

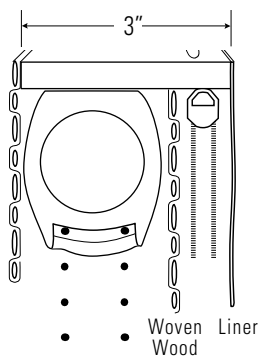

STANDARD TWIN SHADE

Controls Same Side (shown) or Opposite Sides

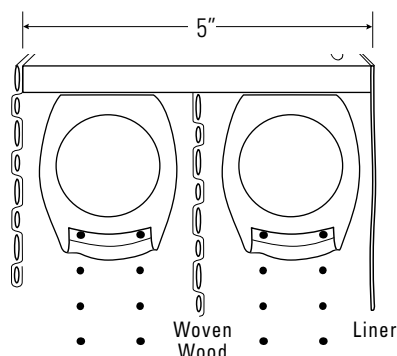

CLUTCH SHADE

With Continuous Cord Loop

TWIN SHADE WITH CLUTCH

(Clutch Control for Front Shade Only)
Controls Same Side (shown) or Opposite Sides

TWIN SHADE WITH 2 CLUTCHES

Controls Same Side (shown) or Opposite Sides

Inside Mount Depths

Minimum Required Depth:

3/4 inch with standard bracket

Flush Mount Depth:

Headrail width plus 1 inch if using standard bracket.

Exact flush inside mount depths will vary slightly based upon the thickness of the fabric.

Inside Mount Deductions

The factory will make a deduction of 3/8 inch for all Inside Mount shades, unless otherwise requested.

Wood Bottom Bar Dimensions

Height: 1 inch
Depth: 1/2 inch

Material is inserted into groove in the top of the wood bottom bar.

One Year Limited Warranty

What is covered by this warranty and for how long:

For a period of one (1) year from the date of purchase, all products are warranted against defects in materials and workmanship provided that the product is installed according to the product instructions. We reserve the right to determine if your piece warrants a repair or partial replacement of any parts or in the unlikely event the entire piece is defective, we will replace this window covering with a new window covering of equal or superior value. This shall be your sole remedy under this warranty.

Who is covered by this warranty:

This warranty applies to the original customer with proof of purchase in a residential application within the United States.

What is not covered in this warranty:

This warranty does not cover removal or installation or reinstallation of any window covering. This warranty does not cover damage or defects caused by or resulting from improper maintenance, neglect or improper use, abuse, misuse, neglect, accidents, Acts of God, alteration, commercial use, installation, removal or reinstallation or exposure to excessive moisture.

Your rights under State Law:

This warranty gives you the specific legal rights. You may also have other rights which may vary from state to state. We will not be liable for **INCIDENTAL OR CONSEQUENTIAL DAMAGES** or for any other direct or indirect damage, loss, cost, expense or fee. Some states do not allow the exclusion or limitation of incidental or consequential damages, so the above limitation or exclusion may not apply to you.

THIS WARRANTY IS EXCLUSIVE AND IN LIEU OF ALL OTHER OBLIGATIONS, LIABILITIES, OR WARRANTIES.
