## 2" Horizontal Blinds

2" Horizontal blinds are simple to motorize with Somfy B Series or XL Series battery powered motors. The B Series and XL Series tilt motors are small, wireless and easily concealed within the headrail of the window covering maintaining the blinds aesthetic appeal. A simple press of a button will tilt the slats open or closed providing the perfect solution for operating blinds in hard to reach places, high windows or large applications. Both the B Series and XL Series motors are available with infrared (IR) control or radio (RF) control and are compatible with the full range of Somfy RTS accessories that include a Telis handheld transmitter, Decora wireless wall switch, Chronis programmable timer and home automation interfaces.

## Somfy Motorization Size and Weight Specifications

BLIND TYPE	MAXIMUM SIZE		MAXIMUM WEIGHT	
	B SERIES 6 VOLT SYSTEM I	XL SERIES 6 VOLT SYSTEM I	B SERIES 6 VOLT SYSTEM I	XL SERIES 6 VOLT SYSTEM I
HORIZONTALS (FAUX WOOD)	66" x 66"	93" x 93"	15 lbs.	30 lbs.
HORIZONTALS (BASSWOOD)	80" x 80"	114" x 114"	15 lbs.	30 lbs.

\*\*UWC strongly recommends sizes over 73" width be Two-on-One headrails\*\*

**Available Colors for Chart 3:**

**Bamboo:** Fawn, Ginger, Sandbar, Wheat

**Rome:** Almond, Brass, Emerald, Garnet, Midnight, Terracotta

**Parisian:** Blue, Cameo, Clay, Green, Ivory, White

**SIZE SPECIFICATIONS:**

Net Min. Width: 9" (Standard Controls Only)  
Max. Width: 120" (including multiple blinds on a headrail)  
Min. Width for LL or RR Controls: 12"

**SURCHARGES:**

**Multi-Color Blinds:**

First Added Color - \$39.00 Net  
Each Additional Color - \$17.00 Net  
Each Addition Blinds (Same width & Colors) - \$25 Net

**Under Width of 12":**

Add \$35.00 to price chart and discount

**FACTORY ALLOWANCES:**

**Headrail, Slats & Bottomrail:**

Inside Mount: 1/2" Deduction on width  
Outside Mount: Exact Measurements

**Valance:**

Inside or Outside Mount: Blind Width + 1"

**Tolerance:** +/- 1/8"

**STANDARD FEATURES:**

2 Slat Valance  
Slim Line Headrail  
Wand Tilt (Clear Wands Available upon request)  
Child Proof Tassels  
Hold Down Brackets & Pins (Upon Request)

**STANDARD CONTROLS:**

Lift on the right side & tilt on the left side

**REVERSE CONTROLS:**

Lift on the left side & tilt on the right side

**LEFT CONTROLS:**

Lift & Tilt on left side

**RIGHT CONTROLS:**

Lift & Tilt on right side

**MULTIPLE BLINDS ON ONE HEADRAIL:**

Priced out as separate blinds

<b>6 Ft. / 72 Inches</b>	<b>70 1/4" to 73 3/4"</b>

AVAILABLE IN WHITE ONLY

## INSIDE MOUNT

### Width

Measure the exact width (left to right) of the inside edge of the window frame in three places (top, middle and bottom).

Take the smallest of the three measurements. Write down that size making sure that it is the first number of the measurement. This is the width you will order. The factory will make all necessary deductions to allow for mounting brackets.

Example: 36 x 60 - 36 is how wide (left to right) the blind needs to be. The width is always the first size in blind or shade measurements.

### Height

Measure the exact height (top to bottom) from the top inside edge down to the window sill in three places. Take the largest of the three measurements. Write down that size making sure that it is the second number of the measurement.

Example: 36 x 60 - 60 is the height the blind needs to be.

The height (top to bottom) is always the second number in a blind or shade measurement.

***PRODUCTION DEPARTMENT WILL DEDUCT 1/2 INCH OFF THE WIDTH (LEFT TO RIGHT) ON ANY INSIDE MOUNT BLIND.***

## OUTSIDE MOUNT

### Width

Measure the exact width (left to right) of the wooden or metal window frame or how wide you would like the blind or shade to be. Make sure to measure wide enough as to cover the entire window and provide maximum light gap coverage. Example: If the window opening is 36", it might be helpful to order 40". This will provide 2" coverage on each side of the window. There is no rule on the width of blinds other than to make sure that it is wide enough to cover the opening. Write down that size making sure that it is the first number of the measurement. Example: 36 x 60 - 36 is how wide (left to right) the blind needs to be.

The width (left to right) is always the first size size in blind or shade measurement.

### Height

Measure the height you would like the blind to be by measuring top to bottom. We recommend adding about 3 or 4 inches to this number to insure maximum light gap coverage and to cover the window completely taking in account the headrail. You will want to mount the headrail above the window frame. Please make a note that some windows have trim that might interfere with mounting so it's important to measure above the trim if this is the case.

Once you determine the desired height (round down to the nearest 1/8 inch) write it down.

Example: 36 x 60 - 60 is the height (top to bottom) the blind needs to be.

The height (top to bottom) is always the second size in a blind or shade measurement.

***THE FACTORY WILL MAKE NO DEDUCTIONS ON OUTSIDE MOUNT BLINDS OR SHADES.***

**IMPORTANT:** USE A METAL TAPE MEASURE FOR ALL MEASUREMENTS MAKE ALL MEASUREMENTS TO THE NEAREST 1/8TH INCH AND ROUND DOWN. For example, 5/16 would be 1/4, 15/16 would be 7/8, etc...

## Outside Door Mount

Blinds that are mounted to doors are almost always outside mount. Please be sure and follow the above instructions for outside mount installations; however it is important to note the following:

1. Make sure the blind is wide enough as not to interfere with doorknobs and other obstructions and also wide enough for optimal light gap coverage. You want your new blinds to cover the entire opening of the window
2. Be sure and add 3 to 5 inches to the length of your blinds taking in account the headrail. You will want to mount the headrail above the window. This is important as you may use hold down brackets on the bottom to hold your blind in place.

**IMPORTANT:** USE A METAL TAPE MEASURE FOR ALL MEASUREMENTS MAKE ALL MEASUREMENTS TO THE NEAREST 1/8TH INCH AND ROUND DOWN. For example, 5/16 would be 1/4, 15/16 would be 7/8, etc...

## LIMITED LIFETIME WARRANTY

**Universal Window Coverings, Inc.** extends this lifetime limited warranty to the original purchaser. This warranty applies only to manually operated blinds which have been properly installed in the window, door or interior area for which it was intended. The blind cannot be modified. Damage to the product resulting from misuse, abuse, warpage due to excessive humidity, or discoloration due to sunlight or the passage of time is not covered by this warranty. This warranty also does not apply to conditions resulting from normal wear and tear. This limited lifetime warranty is extended to the original purchaser only, in the original window for which it was intended. This warranty is in lieu of all other stated warranties, whether written or oral.

**Universal Window Coverings, Inc.** reserves the right to inspect any part or component prior to replacement. If you require further assistance contact **Universal Window Coverings, Inc.** All warranty claims must be accompanied by proof of purchase, as well as details regarding the nature of the problem, location, etc....

**THIS WARRANTY IS EXCLUSIVE AND IN LIEU OF ALL OTHER OBLIGATIONS, LIABILITIES, OR WARRANTIES.** In no event shall **Universal Window Coverings, Inc.** be liable or responsible for *incidental or consequential damages*, or for any direct or indirect damage, loss, cost, expense or fee. Some states do not allow the exclusion or limitation of incidental or consequential damages, so this exclusion or limitation may not apply to you. This warranty gives you specific legal rights, and you may also have other rights which vary from state to state.
